

CMS Center for Consumer Information & Insurance Oversight (CCIIO), Health Insurance Marketplace Public Use Files (PUF) Data Dictionary for Plan ID Crosswalk PUF

1. Overview of the Plan ID Crosswalk PUF

The Centers for Medicare & Medicaid Services (CMS) Center for Consumer Information & Insurance Oversight (CCIIO) is releasing Health Insurance Marketplace Public Use Files (Marketplace PUF) in order to improve transparency and increase access to the Marketplace data. The Marketplace PUF includes data on Qualified Health Plans (QHPs) and Stand-alone Dental Plans (SADPs) offered in states with Federally-facilitated Marketplaces (FFM), which include states with State Partnership Marketplaces (SPM), Federally-facilitated Small Business Health Options Programs (FF-SHOP) and State-based Marketplaces (SBM) that rely on the federal information technology platform for QHP eligibility and enrollment functionality. The Marketplace PUF also includes data on Multi State Plans (MSPs). The Marketplace PUF does not include data from SBMs that do not rely on the federal platform for QHP eligibility and enrollment functionality.

The Plan ID Crosswalk PUF (CW-PUF) is one of the seven files that make up the Marketplace PUF. The purpose of the CW-PUF is to map QHPs and SADPs offered through the Marketplaces in 2014 to plans that will be offered through the Marketplaces in 2015. These data either originate from the Plan Crosswalk template (i.e., template field), an Excel-based form used by issuers to describe their plans in the QHP application process, or were generated by CCIIO for use in data processing (i.e., system-generated). This data dictionary describes the variables contained in the CW-PUF. Each record relates to a mapping between a plan offered in 2014 and a plan offered in 2015 at the county or county-zip code level.

Background on the Plan ID Crosswalk Template

The FFM Plan ID Crosswalk Template crosswalks 2014 Qualified Health Plan (QHP) plan ID and service area combinations (e.g., Plan ID and County combinations) to a 2015 QHP plan ID. These data will facilitate 834 automatic re-enrollment transactions from CMS to the issuer in December 2014 for those enrollees who have not actively selected a different QHP during open enrollment at that time. The Plan ID Crosswalk template itself and the instructions to issuers can be found here:

http://www.serff.com/plan_management_data_templates_2015.htm. The template instructions in particular will be helpful for those who would like a better understanding of the context and meaning of certain CW-PUF data elements.
